

# OFF THE SHELF

## Simpler than your MRP.

X-ray vision into inventory, schedule, and profit for small manufacturers.

### OFF THE SHELF

Small manufacturers are more dynamic than the big guys. You need an MRP software solution that can keep up, not slow you down. **Off the Shelf** is a painless MRP software solution that helps small manufacturers streamline production. In a refreshingly simple interface, it has everything you need to make your products more efficiently. Get products out the door on time and make money with **Off the Shelf**.

#### BILL OF MATERIALS

Keep track of every part and subassembly in your products. Make it as simple or complex as you need with unlimited nesting.

#### PARTS INVENTORY

Automatically track parts inventory on the shelf. Gain instant insights into part usage, lead time, and alternate vendors.

#### PURCHASE ORDERS

Automatically generate Purchase Orders to meet production demand. Track lead times to forecast ship dates for finished goods.

#### TIME TRACKING

Track production time on each product to see accurate labor costs and forecast delivery timelines.

#### PRICING INFORMATION

See instant cost analysis on each product. Know where you make your margin, where you fall short, and where you exceed.
